iP-CB Intelligent Circuit Breaker Direct Factory Reset

Direct Factory Reset

The iP-CB can be reset to factory settings without using the CVs by using the following process:

- 1 - Turn **OFF** power to the iP-CB.
- 2 - Hold the **RESET** button down **WHILE** restoring power to the iP-CB.
- 3 - Release the **RESET** button - the **SET/RUN LED** will flash steadily.
- 4 - Within 5 seconds press the **RESET** button again.
- 5 - The iP-CB will return to normal operation with the main LED on the aluminium constantly lit.
