Toggle Switch To A Cobalt iP Digital Point Motor With Long Wires & Diodes

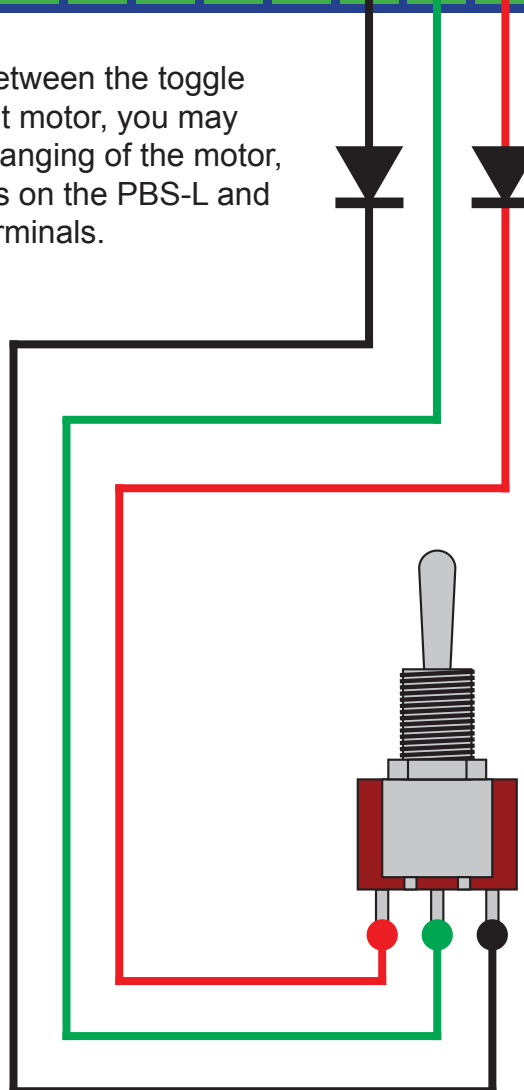

Cobalt iP Digital Point Motor
DCP-CB1DIP

With longer wires between the toggle switch and the point motor, you may experience random changing of the motor, fit two diodes in series on the PBS-L and PBS-R terminals.

Diodes for example
1N4001

To reverse the output to match the toggle switch, swap the RED and BLACK wires at the relevant toggle switch or Cobalt iP Digital point motor.
